Georges, this is totally uncalled for and so rude. You should apologize to Mr. Michel Rheault. Once again another proof point in my contention about your unfitness to be Mayor. Sad to see.

Georges Bourelle How LOW can you get Mr Bourelle? I do not throw dirt at you, I do not give you bad names. I am not a candidate, you should take care of your competition instead. As a citizen of Beaconsfield, all I do is asking you to answer simple questions about FACTS such as : (1) How do you justify the two salary raises you voted to yourself totaling more than 85% over 3 years (2015 to 2018) (2) Without being a doctor do you agree that there is a major health problem along the highway and tracks? The WHO and the MTQ say that there is a huge problem for those living within 300 meters from the highway and tracks. It is now the THIRD proposal from the MTQ to mitigate the noise along the 20. (3) Do you agree that the good financial situation of the city is mostly due to the multi Millions \$ of welcome tax which poured on to the city for the last 8 years, and not your so-called "good management"? Do you want more FACTS Mr Georges Bourelle?

Wow, Spoken like a true Bully and Extremely Childish to attack one's appearance especially coming from our current Mayor. The true character of Bourelle has finally come out. I know everyone knew about his two faces but this post now shows and proves it. Definitely not the leadership we need or want to tolerate here in Beaconsfield

When politics takes a nasty turn.

No matter your views in politics, your belief over the sound wall, speed limit, Centennial Park, taxes etc...no one should treat another human being like this. This is a sad day in Beaconsfield and hopefully not a representation of our community and what we stand for.

I have reported this to the Admin as harassment. I am ashamed that someone (especially a public figure) would stoop so low as to personally insult someone. Shame on you, sir!

It seems that this exchange has gone way too far and to all of you that may have been insulted by my remarks about Mr. Rheault's health, I sincerely apologize and of course I also extend my apologies to Michel Rheault. I wish him the very best.

Georges Bourelle you should worry about your own health, your political health that is. You've essentially committed political suicide with this exhibition of replies to people in the last few days. How can anyone trust a leader of their city who can't even keep his composure on the internet?

Georges, where are Team Bourelle now (Karen Messier, Dominique Godin, Robert Mercuri, David Newell, and Roger Moss)...now would be the time to chime in and support your Leader?!

Georges Bourelle OK George, I accept your apology. But I am a senior, and most seniors have their little health issues. That is OK. But you should NEVER point to that side of our life. Therefore I now wonder about you Georges Bourelle. Maybe your own w... See more
